Languages
- English
- Sinhala

Highlights

- **Final Year Project**
Safety Guiding System- This is an IoT system. Here it is found when the GPS signal is lost in a forest or other such situation. In addition, it acts as a system to help obtain environmental conditions in a forest. A lot of data is collected including humidity and temperature.

Education

- Bachelor of Information Technology Honors:
  Robotic And Smart System – 2019
  Esot Metro Campus, Colombo
